**DIRECTIONS FOR USE
STAINLESS STEEL POTS AND PANS**

USE

- For an extended lifecycle:
- Do not heat while empty, or over-heat.
 - Avoid knocks or sudden temperature changes (if the pan is left on the heat, leave it to cool through contact with air).
 - Do not add salt to the water at start of the cooking process: wait until boiling point and stir until dissolved.
 - At the end of the cooking process, remove any acidic or sugary food from the recipients to preserve their metal surfaces.
 - Wipe down after washing to avoid stains (limescale or loss of shine).
 - Use Matter utensils made with composite materials to avoid damaging your recipients.
 - Use appropriate storage.

MAINTENANCE

- Remove any burnt or ingrained particles by soaking in hot water (no added products required) before cleaning with a sponge.
- Do not use abrasive pads, alkaline products, bleach, acidic detergents, oven cleaners, etc.
- Rinse and wipe down after washing.
- In case of limescale deposits or "rainbow" discolouration after cooking highly starchy products, heat with diluted vinegar, leave to cool and wash as normal.
- Limescale deposits which cannot be removed are a result of underlying corrosion.
- Remove stains or marks resulting from over-heating stainless steel using Bistro stainless steel polish.
- To clean the outside of copper recipients, use Bistro copper polish.
- Store in a clean, dry place.

EFFECTIVE:

Diamond-coated discs: fast, no blade heating and no softening of knife steel.

PRACTICAL:

Diamond-guided grinding angle: safety and ease of use. Suitable for left and right-handed users.

ECONOMICAL:

Precise, symmetrical grinding with 2 or 3 bevels: provides a convex, sturdier blade.

Abrasive diamond-coated blades, very long-lasting.

COMPACT:

Less cumbersome: easy to keep within reach.

GREATER SAFETY

Completely safe grinding: blade always faces down, away from the user.

GREEN WHIP FOR COLD PREPARATIONS

Professional whipper specially designed for cold dairy and/or vegan substitute preparations (soy, rice, coconut, oat, and almond milk and cream). Ideal for making toppings. Time and labour savings due to higher yield with every refill. The Green Whip is a sustainable whipper: The whipper's climate neutrality is fully guaranteed by technical innovations leading to emission reductions and by offsetting. The whipper's closed system keeps cold preparations fresh for several days with no impact on quality and without the addition of preservatives. The Green Whip whipper reduces food waste and, thanks to its airtight closure, cold preparations can be kept in the refrigerator for several days while maintaining consistent quality, without the addition of preservatives. Robust product: stainless steel bottle and head with non-removable valve. Long-lasting, it is more cost-effective and generates less waste than whipped cream aerosols. Charger holder and head with non-slip silicone coating for ease of handling. Silicone seal with tab facilitating extraction for effective cleaning. Cleaning brush for head and socket.

ISI PROFESSIONAL ECO SERIES CHARGERS

World-renowned chargers, the choice of chefs, pastry chefs, bartenders and mixologists for toppings and hot or cold preparations using dairy products and/or vegan substitutes. Eco Series professional chargers produce a rich, natural whipped cream without any additives. Professional chargers contain exactly 8.4 g of N₂O, a guaranteed quantity for each charger to ensure consistent preparation quality. Eco Series chargers are produced using 100% renewable energy. Climate neutrality - tested and certified by TÜV Austria - is fully guaranteed by technical innovations leading to emission reductions and by offsetting. Made in Austria from European steel - a 100% recyclable material with a 40% lower climate impact than Asian steel - the chargers are 100% recyclable (depending on the legislation in each country). 30% recycled steel. Can be used in all iSi whippers. Sale prohibited to minors.

Step by step

Gas is released from the capsule into the iSi siphon, enabling high-pressure introduction of liquid and gas into the pores of the solid substance. If the pressure is reduced, the gas forms bubbles and carries the flavours of the ingredient with it. This diffuses the taste into the liquid.

For a rosemary flavored oil (1L siphon):
 - 1L of olive oil.
 - 4 to 5 branches of fresh romarion.

1 | Fill with the liquid and the solid substance:
 Fill the iSi Gourmet Whip with the ingredients up to the maximum capacity.

2 | Tighten the capsule holder:
 Tighten the capsule holder with an iSi whipped cream capsule onto the iSi siphon in upright position.

3 | Release the pressure:
 Quickly aerate by activating the lever.

4 | Pour the preparation:
 Pour the flavoured liquid into a container, passing it through the funnel and the iSi sieve.

CHOOSE THE SCALE SUITED TO YOUR NEEDS:

RANGE

We offer scales with ranges from 500g to 150kg.

PRECISION

From 0.1 to 10g, precision is often important both in baking and cooking; and it is generally proportional to the range.

TRAY SIZE

Choose scales with tray dimensions suited to the products you are weighing. All the trays on our scales are suitable for food contact.

THE ENVIRONMENT

Choosing scales with IP 67 protection ensures no-risk use in environments that are wet (can be washed) and dusty (flour).

IP 54: Protection from splashes and dust deposits.

IP 67: Protection from water and dust intrusion.

NB: Our scales are designed for laboratory weighing. They are not authorised for sales transactions.

Contact us for scales for commercial use.

Teflon-free tray.

Protect from moisture, do not immerse (dishwasher, fridge, cold chamber).

Wash without water with a cloth. To oil to avoid corrosion, rust.

PREPARATION TIPS FOR USING BLUE STEEL SHEETS

- The new sheets must be used after a pre-treatment curing process.
- The new sheets must be heated to 100 ° C for a good hot cleaning, with a piece of cloth. The operation must be repeated three times.
- Then, the sheets or pans must be greased with oil or good-quality fat food and heated at 180°C for 2 hours.
- Clean with the piece of cloth once again when out of the oven, and then grease them.
- They are ready to be used. The greasing operation must be repeated before every use.

Reminder: Blued plate sheets are humidity-sensitive. They should not be stored in a wet environment (cold chamber, fermentation chamber). Clean only with dry cloth. The use of abrasive sponge is forbidden. It can damage the top layer of metal and make it lose its properties. Washing is not recommended. If sheets are washed, make sure to dry them and grease them immediately afterwards, following the above-described process.

Original decorations that can be used from freezer to oven

Step by step

1 Prepare a cigarette batter. Place the mat on a perforated sheet 600 x 400 mm code 310612. Spread the cigarette batter coloured as per your taste to the brim of the relief pattern. Smoothen well to the height of the motives. Cool.

2 Cover the decorating batter with around 500 g of the mixture of biscuit, joconde, Genoese, dacquoise or other. Bake in oven at 220°C for 10 to 12 minutes.

3 Turn out either hot or cold.

4 Cut the strips in the embossed biscuit.

5 Line the circles with the bands.

Relief mat for cake strips with a regular design and a beautiful relief effect.

Silicone baking mat usable for baking embossed cakes for lining desserts and small cakes, pouring cooked sugar, nougat, fruit jellies, making decorations from paste, baking savoury or sweet dough, puff or embossed pastry.

Food grade silicone.

Inner format: 530x370 mm.

EXOGLASS®

- Monobloc mould, non-stick without welding or rolled rim, non-deformable.
- Excellent heat diffusion for perfect cooking and colouring.
- Very low heat inertia. Perfect turning out without risk of burns.

Testimonial...

"Matter's Exoglass® moulds make my everyday work easier. I really appreciate their utilization qualities. Raised dough does not oxidize the moulds, making cleaning easy and fast by hand or in the dishwasher. This material means that I no longer need to grease except for really soft doughs such as fluted patterns and cakes. I can mould-release my tarts, cakes or loaves immediately after removing them from the oven, without any risk of burns. They have beautiful even deep browning, making you want to bite into the cake. I sell a great number of cakes and the individual cake moulds by Exoglass® mounted on a plate, gain a lot of handling time. Buying these moulds is a long-term investment guaranteeing the quality of work of my teams and regular quality of the products sold to my customers in the shop".

**CLEAN DEEP-DRAWN TRAYS
APPRECIATED BY SPECIALISTS FOR
GOLDEN AND SPONGY PRODUCTS**

Multi-layer PTFE-coated fine steel. Non-stick coating (PFOA-free) for homogeneous cooking without greasing for dough preparations only, easy to turn out. Light greasing the first few times it is used will extend coating life. Oven-safe for quick browning. Clean with hot water and degreasing products. Protect from moisture (dishwasher, fridge).

BAKING BEADS

For even and perfect blind baking of tart shells. Use a sheet of paper between the dough and the stones to prevent them from sticking to the dough. Unsuitable for direct food contact.

Type	Weight g	Ref.	Price
aluminium	1000	340001	
ceramic	1000	340002	

Step by step

1 | Place the stainless steel sheet on a flat surface and position the first chosen frame.

2 | Fill the first frame placed on the special sheet with the chosen filling.

3 | Smoothen with a rule.
Cool to harden based on the filling used.

4 | Then place the second frame on the first, use another filling and smoothen.

5 | Proceed in the same way for the third filling.
Freeze the whole set with the sheet if required.

6 | Turn out by removing the frames one by one.
(do not heat with a torch but use a blow air gun instead).

Thus entremets that are ready to cut can be easily made, with successive layers that are uniform providing a beautiful effect and reducing the assembly time. Layers of biscuits can also be inserted between the fillings.

SIMPLE, CONSISTENT, TIME-SAVING

Quick and easy assembly of trays of desserts in perfectly even layers

Allows you to stack desserts of variable height (20 to 45 mm).

Special corner notches allow for quick and easy stacking.

The support plate is in stainless steel and the various frames in aluminium.

Cold restitution plate for making chocolate decorations

Without edge.

Makes chips/grills/cornets/chocolate ribbons for dessert decoration.

Tray can be stored in slide-out freezer cabinets.

Contains eutectic liquid.

Principle: freeze the stainless steel plate containing a eutectic liquid at -21°C for 24 hours. Spread the tempered chocolate on the plate. The chocolate undergoes a thermal shock and becomes malleable.

Tip: use the Cool Décor tray as a cold stand for the assembly of frozen desserts.

Quick manufacture of bare or printed chocolate discs and tuiles

Principle of use:

1. Place the plate width-wise on the 1st third of a "guitar" PVC sheet.
 2. Position the shuttle at one end of the plate and fill with chocolate.
 3. Slide the shuttle to the other end of the plate - as it moves, chocolate fills the perforations.
 4. Lift the base and place it on the 2nd third of the sheet.
 5. Do the same thing twice more to cover the entire 600 x 400 mm sheet.
- Dimensions: 635 x 167 x 82 mm.

CHEF'S TIP:
 PLACE THE KIT IN AN OVEN AT 30/35°C BEFORE USE
 TO AVOID THE CHOCOLATE SOLIDIFYING

How to choose your tray ?

Base tray for glasses and cups of heights under 75mm.

For taller glasses, stands of 40mm (or extensions) are available to clip onto the base tray.

The table below shows how many stands are necessary for each glass height.

Stands guarantee glasses are completely shockproof during washing and while being handled in trays.

- Moulded single-piece polypropylene.
- Double sided for better impact resistance and protection of glassware.
- 4 moulded handles.
- Fast and easy assembly of extensions, no tools required.
- Resistant to high temperatures, chemicals and food
- Open sides for effective circulation of water and fast drying.
- Stackable with the majority of existing models.
- Base designed for dishwashers with central or side feed.
- Height of base trays: 80 mm.
- Dimensions: 500 x 500 mm.

CONDITIONS GÉNÉRALES DE VENTE

ARTICLE 1 - Appréhension des conditions générales de vente - Transparence

Conformément à l'article L217 de la Loi de consommation, les présentes conditions générales de vente constituent le socle de la négociation commerciale et sont systématiquement adressées en même temps à chaque acheteur pour lui permettre de prendre connaissance.

Ces présentes conditions générales de vente sont applicables à toutes les ventes.

Les présentes Conditions Générales de Vente peuvent être complétées en cas d'achat par des Conditions Particulières qui figurent à chaque catégorie de services ou produits. Elles sont accessibles en cliquant sur le lien "Conditions Générales de Vente" sur la page d'accueil de notre site internet.

En cas de conflit, les Conditions Particulières prévalent sur ces présentes conditions générales de vente.

ARTICLE 2 - Commandes

Pour être valable, chaque commande doit respecter la forme et les informations requises pour un traitement par OCR (procédure à disposition de la Clientèle).

En cas de réception de commande incomplète ou de retard sur le délai de livraison, le vendeur s'engage à informer immédiatement le client par e-mail ou par téléphone.

En l'absence de réponse, la commande sera traitée par le vendeur en vertu des conditions de vente générales.

ARTICLE 3 - Modification de la commande

Toute modification ou résiliation de commande sera soumise par l'acheteur au préalable à la validation écrite par le vendeur et il n'est pas permis par la suite l'application des présentes.

ARTICLE 4 - Prix

Les tarifs affichés en cliquant sur le lien "Conditions Générales de Vente" sont les tarifs applicables pour les produits vendus sur notre site internet. Les tarifs applicables en magasin peuvent varier en fonction de la date de la commande. Les tarifs applicables en magasin peuvent varier en fonction de la date de la commande.
